

Adaptive Leadership Masterclass (Children, Youth & Families)

Leadership and Governance for a just and sustainable future

Executive Challenge Academy
Alliance for Leadership Learning

“ The Adaptive Leadership Masterclass is designed as an immersive change laboratory where cross-sector leaders work together on an adaptive challenge that will improve outcomes for their organisations, their clients and the community. ”

Professor Paul 't Hart

Professor of Public Administration at Utrecht University and Associate Dean of the Netherlands School of Public Administration in The Hague.

ACCELERATE YOUR LEADERSHIP

CREATE LASTING NETWORKS

This Adaptive Leadership Masterclass is a mix of in-person workshops, regular webinars and online content modules that will connect participants to their challenge statement.

As we adapt to organisational environments of constant change and uncertainty, our knowledge and capabilities also need to broaden. A program that facilitates cross-sectoral and multi-jurisdictional adaptive leadership will broaden your executive leadership skills and deliver multi-dimensional outcomes for your organisation, sector and community.

The Masterclass program runs over four to five months. It culminates in adaptive presentations (and other forms of engagement) by participants to a panel of senior executives to gain sponsorship for breakthrough programs of work.

WHY EXECUTIVE CHALLENGE ACADEMY?

What differentiates the Executive Challenge Academy from other executive education programs is real-world situational learning that prepares you to lead in today's global climate filled with volatility, uncertainty, complexity, and ambiguity. The program combines three essential elements for effective leadership as a senior executive, while delivering actionable insights that can be immediately applied upon your return to the office.

The Executive Challenge Academy has over 15 years of practice in collaborative leadership development and transformation and is strategically positioned to work with you to create cutting edge practice in leadership. Our 'dynamic learning' philosophy of encouraging new ideas, new approaches and new connections creates an environment of rich development. The Executive Challenge Academy also has an active alumni of over 1300 people across government, business and NGO sectors.

“

To be honest, I wouldn't have ever even thought of engaging with (other sectors) prior to the Executive Challenge,” “It just opened my eyes to the fact that you can look outside of your organisation for help or for guidance and support because most people from other industries are having the same problems or have had the same sort of risk.”

Michael O'Neil

Chief Superintendent – Northern Region at Queensland Fire and Emergency Services

The Executive Challenge Academy is delivered by Alliance for Leadership Learning - a social enterprise organisation dedicated to reinvesting in place-based, cross sectoral leadership development.

ECA Program Journey

Our programs are a mix of in-person workshops, regular webinars and online content modules that connect participants with each other and engage them with world-leading experts. This maximises learning while recognising the pressures of working lives for executives.

Part of the success of our programs arises through participants applying the program concepts to an adaptive challenge they are grappling with in their organisation or sector and presenting their findings to an executive panel of industry experts.

Orientation & Leadership story

Orientation starts with leaders gathering to connect as a cohort, share their leadership journey so far and look at the complexity of work and leadership.

Online Learning Modules

Online learning modules offer access to program resources on various topics and include practical tools, videos, reflective questions, quizzes and resource materials to maximise learning.

Keynote Webinars

Regular webinars engage participants with world-leading experts that provoke deep thinking on critical topics.

Online Learning Modules

In-person Workshop

In-person workshops explore key themes and practical topics and allow participants to network and collaborate on their adaptive challenge work.

Online Learning Modules

Live Case Study

Live Case Study is an experience based learning method where the participants analyse the 'real challenges and opportunities' of an organisation in a diverse sector through an on-site visit.

Group Learning Sets

Group Learning sets bring current work issues/challenges to the group to be worked through in a reflexive manner.

Adaptive Challenge Presentation

Present your adaptive challenge and gain targeted feedback from industry experts and peers.

Alumni

Continue to build your leadership capabilities, profile and connections with over 1400 Alumni around the world.
